

MY NAME IS VIKTORIIA

GRAPHIC & WEB DESIGNER

I've been passionate about art and design for as long as I can remember. My journey in design began in 2022 when I completed a Graphic Designer course at Projector and earned my certification. Shortly after, I enrolled at the Academy of Art and Design in Łódź, Poland, to study Computer Graphics in the Department of Visual Communication, where I'm now in my third year. To deepen my understanding of usability, I've also taken QA manual courses. 3D design is one of my biggest passions, and I'm excited to explore this area further in the future.

*My native language is Ukrainian. I also have a B2 level in English and Polish.
